1. This report should not be produced partly or full without approval of signatory authority for legal purposes .
2. It is recommended that acceptable limit is to be implemented. Values in excess of those mentioned under "acceptable" render the water not suitable, but still may be tolerated in the absence of an alternative source but up to the limits indicated under the "permissible limit in the absence of alternate source".
3. The results refer only to tested samples and parameters tested.
4. Samples will be stored for a period of 10 days from the date of issue of report.
5. This lab does not hold any responsibility for variation in results for samples kept on hold for want of clarification.
6. The laboratory is responsible for all the information provided in the report, except when information is provided by the customer. Data provided by a customer is clearly identified. In addition, a disclaimer is put on the report when the information is supplied by the customer and can affect the validity of results. (The sample has been provided by the customer), it states in the report that the results apply to the sample as received
